THE ROPES LEADERSHIP INTENSIVE

Contained within these two days are the foundational tools for natural leadership.

On the first day you will delve deeper than you have gone before to fully understand the principles of natural leadership and the tools to transform mediocrity into power, spin and secrecy into authenticity, fear into power. You will learn the qualities of natural leadership and most importantly **HOW** to evolve yourself into the leader you are meant to be. Learn **HOW** to turn past stumbling blocks into spring boards. You will learn the **KEY** to maintaining mental and emotional management and how to reach deep down to find and remain in your center in even the most difficult circumstances.

On the second day we have put together a day on the ropes course to offer you an experience that will support you in moving forward regardless of circumstances, in breaking through limiting beliefs, in reconnecting with what is important. Through this program, you will connect experientially to **“If I Can Do This, I Can Do ANYTHING!”**

By attending this workshop you will:

- Build self realization in a powerful , energetic way
- Experience how your thinking and emotion transfers to how you take action
- Become aware of your energy and how to transfer to positively influence others
- Increase communication effectiveness
- Increase connection with self and others
- Create understanding on your relationship with risk and fear; connect with risk and fear in a positive, forward moving way
- Experience the value of being present in your relationships and as a leader

The combination of a low and high ropes course enables participants to grow at the team and individual levels, exploring risk, leadership, communication, and teamwork. The low ropes focuses on collaboration, communication, trust and problem solving. The challenges call upon every member of the team to participate, and present unending opportunities for discovery, development and the practice of leadership skills.

What you can expect:

- Achieve clarity about who you are and what you want
- Achieve clarity about the possibilities that exist for you and your life.
